Portfolio : <https://sheikh-rabab.github.io/portfolio/>

SKILLS

- Technical Skills: Word, Excel, Powerpoint, Office
- Programming Languages: JavaScript, TypeScript, C
- Web Development: HTML, CSS, Tailwind CSS, Node.js
- Databases: SQL, PostgreSQL
- Frameworks: Express.js
- Version Control: Git
- Software Tools: Visual Studio Code, CodeBlocks
- API Integration : REST API, GraphQL
- Problem Solving: System design, server-side communication, debugging
- Team Collaboration: Strong communication and teamwork skills

EXPERIENCE

- Created a Food Ordering Web Application that presents simple UI/UX for efficient user use where the backend communicates on the server side smoothly using REST API. Implemented security measures such as password hashing and session storage for proper user protection. The database consisted of a Structure Query using MySQL which was used to track user ID and their respective order history. Dynamic price calculation was implemented for better user experience.

Tech Stack : CSS3, JavaScript, Node.js, Express.js, MySQL
